PROFESSIONAL EXPERIENCE

Marketing Associate

DECNET Logistics, Lagos State

March 2021 – Present

- Managed records and maintained accurate sales documentation for over 400 customers with 99% data accuracy to support daily business operations.
- Coordinated communication between customers and internal teams to ensure timely order processing and delivery.
- Responded promptly to customer inquiries and resolved issues, contributing to improved customer satisfaction and retention.
- Assisted with administrative and marketing activities, including maintaining product information and preparing reports.
- Maintained organized customer follow-ups that strengthened client relationships and encouraged repeat business.

Personal/Office Assistant

Kolade Akanle & Co, Lagos State

February 2020 – March 2021

- Supported daily administrative operations, including scheduling meetings, filing documents, and managing office correspondence.

- Prepared legal documents and maintained confidential records for over 40 clients with professionalism and discretion.
- Managed email communications, appointment scheduling, and data entry tasks to improve office efficiency.
- Managed office inventory and supplies while maintaining an organized workplace that supported efficient daily operations.

VOLUNTEER EXPERIENCE

Volunteer, Logistics and Protocol Department

Nigeria University Games, University of Lagos

March 2022

- Assisted with registration, orientation, and accommodation for over 1000 participants during the Nigeria University Games.
- Assisted in coordinating logistics for sports equipment and event materials.
- Supported transportation, protocol, and venue setup activities.
- Worked collaboratively with volunteers to ensure successful event operations.

PROJECTS

Deloitte Australia Data Analytics Job Simulation - Forage

June 30, 2026

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

Forage Academy Data Labeling Job Simulation - Forage

July 13, 2026

- Completed a job simulation where I worked as a Data Labeling Analyst for a hypothetical AI company, reviewing real customer support messages
- Practiced classifying messages for Intent, Sentiment, and PII (personally identifiable information) using a consistent labeling schema
- Evaluated tricky or ambiguous edge cases, and wrote short rationales justifying final label decisions
- Reviewed labeling work done by others, identified inconsistencies, and suggested one improvement to the team's labeling guidelines
- Strengthened my ability to apply clear definitions, follow ethical privacy practices, and maintain consistency across data
- Gained hands-on experience in human-AI collaboration, foundational to roles in AI ops, trust & safety, and machine learning support
